

AMERICAN SPORTS BUILDERS ASSOCIATION CERTIFIED BUILDER STANDARDS OF CONDUCT

The American Sports Builders Association (ASBA) maintains a rigorous program for advanced certification of builders of tennis courts, running tracks and sports fields. Certified builders are expected to provide leadership in both quality construction and ethical standards of business conduct, and agree to abide by the following standards of conduct to the best of their ability:

1. To construct sports facilities reflecting the highest standards of quality construction, consistent with design specifications and the needs and desires of the owner.
2. To consistently promote the goals of human safety in construction practices and facility design.
3. To keep abreast of new developments affecting the facilities they build.
4. To comply with all laws and regulations pertaining to their building activities.
5. To conduct their business affairs with responsibility and integrity.
6. To deal with owners, employees, design professionals, subcontractors and suppliers honestly, fairly and honorably.
7. To uphold the integrity and quality of ASBA's Certified Builder programs by abiding by all regulations and policies relating to the use of the Certified Builder designation.

As a Certified Builder, I pledge to abide by these Standards of Conduct to the best of my ability.
